Phone

Chief Complaint

Inpatient Consult Example

Chief Complaint: Insomnia, paranoia

HPI

Patient has had difficulty with insomnia throughout his hospitalization. Was given Klonopin 1 mg and Zyprexa 5 mg 2 nights ago for sleep, he was only able to sleep for approximately 1 hour. He did get his Zyprexa 20 mg and gabapentin 600 mg prior to bed. He was given as needed Benadryl which not provide relief.

Treatment Plan

Discussed medication options with RN, Christy. Will provide Restoril 15 mg now, may repeat after 1 hour if patient is still not getting any sleep.

Risk stratification

Suicide Risk Not Completed as Part of Encounter

Diagnosis

G47.00 Insomnia, unspecified
