Patient is a 50-year-old female currently in Wilmont who presented to the emergency room with concerns for paranoia. The patient has reportedly been concerned that people are following her and watching her. She has no outpatient psychiatrist. Her paranoid symptoms started on Thursday of this week. She has been more agitated and restless with pacing. She has flight of ideas. The patient reportedly had a friend pass away and this month is 1-year anniversary. Hallucinations are command, voices telling her to kill herself.
