

Support for those who respond at a moment's notice

Avel eCare EMS offers board certified emergency physicians, experienced paramedics and nurses rendering emergency care and peer-to-peer support for EMS agencies in the State of South Dakota.

Each participating EMS agency will have an ambulance outfitted with a rugged, reliable, and advanced technology package that will connect responding EMS personnel to Avel's hub in Sioux Falls through a telemedicine-enabled tablet via available cellular networks.

Consulting services Avel eCare EMS can provide EMS agencies include:

- Triage
- Airway / ventilation / oxygenation
- Circulation, hemorrhage, or other cardiovascular needs
- Trauma Care
- Medication decisions as included in the Basic Life Support and Advanced Life Support scope of Practice
- ECG interpretation as available for remote reading
- Peer-to-peer consultation
- Procedural decisions
- Review or advisement on diagnostic tests
